

"Eric installed our high speed wireless network through out our home and adjacent studio and we couldn't be more happy with the service. □ As a tech support he is patient and thorough - qualities that are crucial when dealing with your average garden variety computer user. □ He is also a shark on the ping pong table so beware and play at your own risk." - Jan

Westport, Connecticut 06880

Services Performed: Whole House Wifi, MacBook Pro Setup & Migration, CAT6 Wiring
