"Eric preformed exceptionally during the installation off the new sophisticated whole house WiFi Internet system in the new residence of my principles Mr. and Mrs. Bronfman. Not only did he successfully fulfill all of their requirements, but also with his knowledge and advice, turned the newly installed system into a real piece of art. His dedication to the smallest details and almost unlimited availability to work with us personally on the project made this process the smoothest part in establishing this new residence. With the deepest respect for his professional abilities and personal involvement" ----- *Vito Tumilowicz - Estate Manager, Westport CT.*

Services Performed: Whole House Internet Wireless System, MacBook Pro Setup & Migration
